THE CLOUD JUST GOT BIGGER

INTRODUCING THE NEWLY EXPANDED 200 SUMMIT DATA CENTER

A multi-million dollar expansion to one of TekLinks' Birmingham data centers has nearly doubled the data center's capacity while making it one of the largest data centers in the state of Alabama.
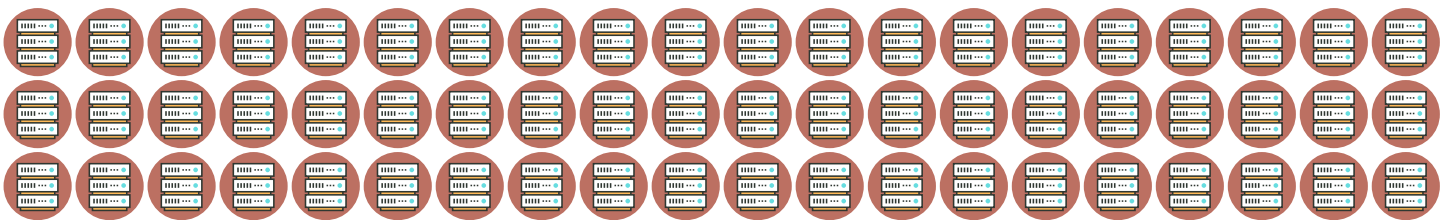

CAPACITY

3,000 ft^2
CAPACITY ADDED DURING THE DATA CENTER'S EXPANSION

6,500 ft^2
CAPACITY OF THE BIRMINGHAM DATA CENTER POST-EXPANSION

12,000 ft^2
TOTAL CAPACITY OF ALL TEKLINKS DATA CENTERS POST-EXPANSION

With the expansion, the Birmingham data center can now hold **156 equipment racks**.
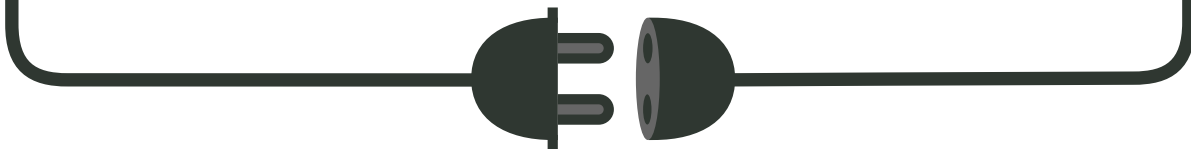

= one equipment rack

POWER

The generator capacity starts at one megawatt of power.

That's enough to power more than 500 homes!

500+

COOLING

The newly expanded data center features a **192 ton ambient cooling system** with built-in redundancy to ensure an optimal environment for equipment.

In comparison, a typical business uses a non-redundant 3-5 ton air conditioning system.

ABOUT TEKLINKS

TekLinks is a national leader in cloud computing, managed services, engineering services, and value-added resale. We're a team of expert techies and business professionals who are passionate about building valuable relationships and getting things done right. Simply put: We make IT work for business.
