

# TEK THE HALLS WITH FOUR CYBER SECURITY TIPS

## STAY OFF THE NAUGHTY LIST

**HUMAN ERROR CONTRIBUTES TO 95% OF ALL CYBER SECURITY INCIDENTS.**

Prevent incidents by implementing a training plan that is specific, relevant, people-oriented and consistent.

## HO-HO-HOLD YOUR LAPTOPS

**12,000 LAPTOPS ARE LOST OR STOLEN EVERY WEEK.**

Encrypt your data so that it's unreadable, even if it falls into the wrong hands.

## HACKERS? BAH HUMBUG!

**MORE THAN 195 MILLION PERSONAL RECORDS WERE EXPOSED IN 2015.**

Keep personal information private through file encryption and by controlling who has access to sensitive information.

## BAD APPLICATIONS GET COAL

**75% OF ALL CYBER ATTACKS OCCUR AT THE APPLICATION LAYER.**

Utilize application controls to prevent unauthorized apps from running and ensure authorized apps run properly.
